

Welcome to the Impetus4Change Community

Impetus4Change is a collaborative project that unites climate experts, city planners, and social scientists in a shared mission to enhance the quality of climate information in cities and regions. Our goal is to empower communities with the knowledge they need to build a more sustainable and resilient future.

In this newsletter, we delve into the heart of I4C, sharing project updates, insights and stories that illustrate our commitment to driving positive change. We invite you to join us on this journey, stay informed, and become part of the global effort to address the pressing challenges of our time. Thank you for being a part of the Impetus4Change community, we hope you find our research useful and we urge you to share any updates with your own network to spread the word.

Learn more about the project below and stay tuned for our upcoming events!
