The work process

Step-by-step to answering the assignment

The work process

Group assignment

You are an interdisciplinary group tasked with developing a policy brief on **governance for effective adaptation**. Use experiences from I4C and different perspectives to explore governance mechanisms, mandates, coordination structures, and decision pathways that help translate climate knowledge into concrete adaptation actions. Focus on implementation, collaboration, and evidence-informed decision-making.

Step 1: Get to know each other

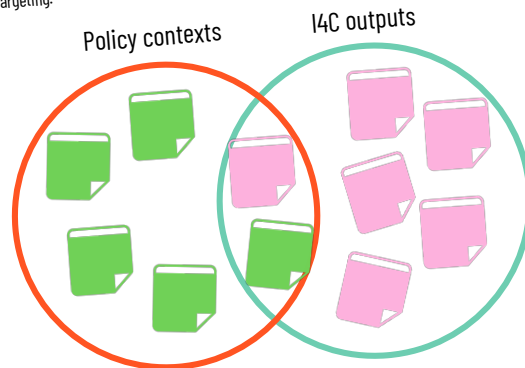

Begin by introducing yourselves. Share your background, interests, and perspectives related to climate services, policy, research, or practice. Identify the experiences and viewpoints represented in your group and use them as a resource throughout the process.

Here are some questions that can get you started:

- Where are you coming from — research, policy, or practice?
- What helps climate knowledge lead to action — and what gets in the way?
- What do insiders take for granted that an outsider would question?

Step 2: Frame

Frame the policy context your group will focus on. Brainstorm different policy contexts you know of related to your theme along side I4C outputs, developments and lessons. Find where the policy contexts and I4C outputs intersect and decide on what your policy brief will focus on. Describe in detail the policy context in the first box on the poster along with a description of the policy audience you are targeting.

Step 3: Explore

Explore how I4C responds to the policy context you have defined in depth. Further develop the key messages and lessons from I4C that can support future decision-making. Be creative in exploring the relevance, strengths, limitations, and opportunities revealed through the project's tools, datasets, approaches, and experiences. Illustrate these insights in an informative and engaging way that helps others understand the project's contribution and where further action is needed.

Step 4: Imagine

Imagine possible futures, pathways, and policy options inspired by your discussion. Consider what should happen next, who should act, and what changes or innovations could strengthen future climate service development and policy impact. Future your ideas clearly and constructively in the final section of your poster.

Step 5: Communicate

Communicate your ideas through the policy brief poster. Craft a clear title, refine your message, and present your insights visually and concisely. Prepare to share and discuss your work during the final session's interactive exhibition.

The poster template includes the following sections:

- Policy brief title**: A line for the title.
- What is the policy context?**: A line for the context.
- How does I4C respond? Or not?**: A section with a flowchart showing a yellow circle connected to two blue circles.
- What are the options?**: A line for options.
- References?**: A line for references.

The work process

Step-by-step to answering the assignment

A large orange circle is positioned on the left side of the slide. Behind it and to its right are several curved, semi-circular shapes in light blue and yellow, creating a layered, abstract background.

The work process

Policy brief title	
What is the policy context?	
How does I4C respond? Or not?	
What are the options?

Chloe

Remember...

to be present.

to listen and learn from each other.

to have your say.

to have fun!... and eat well.

Day 1: Tuesday June 16

1315-1400	<i>Registration and mingling</i>
1400-1405	<i>Welcome, Stefan Sobolowski, I4C Principal Investigator, NORCE</i>
1405-1425	<i>What is a policy brief and how to use it? Chloe Hill, Science Policy Manager, European Geoscience Union.</i>
1425-1445	<i>Ideas about the policy themes for Adaptalab, Marta Bruno Soares, NORCE & University of Leeds.</i>
1445-1505	<i>Adaptalabs & I4C achievements, Stefan Sobolowski, NORCE</i>
1505-1525	<i>Practical information about Adaptalab and the program, Mathew Stiller-Reeve, Village Green, Norway</i>
1525-1530	<i>The working groups gather</i>
1530-1730	GROUP WORK (Get to know each other) Working groups begin with tapas and soft drinks at Litteraturhuset.

Day 2: Wednesday June 17

0830-0900

Coffee and mingling

0900-0910

Information about the day

0910-1045

GROUP WORK

1045-1145

Networking activity (meet others)

1145-1230

GROUP WORK

1230-1330

LUNCH

1330-1530

GROUP WORK

1530-1600

Exchange of ideas between groups

1600-1700

GROUP WORK

1930-2200

Workshop networking event (food and soft drinks included):
Basso Social, Strandgaten 53, 5003 Bergen

Day 3: Thursday June 18

0830-0900

Coffee and mingling

0900-0910

Information about the day

0910-1045

GROUP WORK (communicate)

1045-1100

Poster set-up and tidy

1100-1230

RESULTS SESSION (POSTERS) incl. official closing (lunch will also be served at 1200)
